**Request for Applications
Pilot Projects for Rare Kidney Stone Research
Rare Kidney Stone Consortium
[U54DK083908]**

The Rare Kidney Stone Consortium is seeking applications for pilot projects in research in rare kidney stone disease. Ideal projects will facilitate acquisition of preliminary data that can be used for future grant applications. Projects that explore promising or novel treatments, develop new diagnostic tests or laboratory assays, or those that identify new markers of disease activity are encouraged. New investigators and/or individuals not currently engaged in rare diseases research are especially encouraged to apply. Applicants can come from Consortium participant institutions or elsewhere as long as the PI collaborates in a direct and meaningful fashion with a RARE KIDNEY STONE CONSORTIUM -affiliated investigator. Recipients are required to present their results at a RARE KIDNEY STONE CONSORTIUM investigators meeting.

Application:

- Please use NIH Form 398 application forms using the 398 form instructions.
(<http://grants1.nih.gov/grants/funding/phs398/phs398.html>)
- Please include the following:
 - Cover sheet (Face Page prepared by OSPA)
 - Abstract (398 Form Page 2)
 - Budget (398 Form Page 4 and 5—a modular budget should **not** be used); prepared by the Office of Sponsored Projects (OSP), Mayo investigators should work with (OSP) to develop the budget for the proposal. At Mayo Clinic Rochester, contact Leah Springer (Springer.Leah@mayo.edu), Mayo Clinic Arizona, Eric Meek (Meek.Eric@mayo.edu), or Mayo Clinic Jacksonville, (flaresearchgrants@mayo.edu)
 - External budgets
 - Please work with your local office of sponsored projects for preparation of the budget for your pilot project application.
 - If you want to include support from a Mayo Clinic study coordinator or other support from Mayo Clinic for your project/protocol, please contact the consortium Director, Dr. Dawn Milliner (Milliner.dawn@mayo.edu) or the consortium Associate Director, Dr. John Lieske (Lieske.John@mayo.edu) for this request.
 - Biographical sketch for PI and other key personnel (398 Format)
 - Resources Page (include those relevant to the application) (398 Format)
 - Research and Training plan – Divided into two components; up to 5 pages can be used for both parts together as needed.
 - **Research plan** structured as follows:
 - Specific Aims
 - Background and Significance

- Preliminary Data if any
- Research Design
- Timeline for K- or R- class NIH application which ideally would result from the Pilot Project; including description of **key expected results** which would lead to a larger application)
- Please indicate if there is specialized equipment required (as well as availability)

Funds available: At this time, funding is available from two funding sources and open to candidates internal and external to Mayo Clinic

1. NIH funded awards for up to a maximum of \$48,000 total costs per year. Salary, fringe benefits and research expenses can be budgeted to this fund.
2. Oxalosis and Hyperoxaluria Foundation (OHF) funding for study on an oxalate-related project. The funding award for this project will be \$25,000 total costs for one year.

Timeline:

RFA issued: June 4, 2018

- Mayo OSPA internal deadline for budgets: July 13, 2018
- Applications are due: July 23, 2018 at 5 PM (CDT)
- Applications reviewed: July-August 2018
- Awards are scheduled to be announced: August-September 2018

Please submit applications to Tammy Greenwood (greenwood.tammy@mayo.edu), Rare Kidney Stone Consortium.

Questions:

Please contact John Lieske (Lieske.John@mayo.edu), David Goldfarb (dsgold@verizon.net), Dawn Milliner (milliner.dawn@mayo.edu), or Tammy Greenwood (Greenwood.Tammy@mayo.edu).
